- Leadership

SUMMARY

My goal is to be an expert in full-stack web development. Constantly, In addition to Front-end web development, I am Developing new skills or knowledge in website development. I have the creative ability to update anything. I want to work in this position in your company. Honest and hard work gives me the courage to do work better.

WORK EXPERIENCE

Diagram

E-Commerce (Front-End)   **Live site**   **github Link**

- I have developed a fully responsive e-commerce website that provides a seamless user experience across all devices. The site includes an intuitive filtering system, allowing users to easily refine their search and find the clothing items they need.Real-Time Cart Updates: Display updated cart items, total price, and discounts dynamically as users add or remove items.
  user-friendly and personalized browsing experience.

   Technology : Rect.js, Tailwind CSS, React Slider, etc.

Sultan Dine

Restaurant (Front-End)   **Live site**   **github Link**

- I have created a fully responsive restaurant website designed to deliver an engaging user experience across all devices. The site features smooth navigation and visually appealing layouts, with sections showcasing the menu, chef specials, and services. It is enhanced with animations and interactive elements, making it easy for customers to explore the menu and enjoyable experience for users.

   Technology : Rect.js, Tailwind CSS, React Slider, etc.
